

David Pisco Photography, LLC

Description:

Picking your wedding photographer comes with making a lot of decisions, you need to choose a photographer who not only takes memorable photographs but also creates those photographs in a way that will compliment your special day and lower your stress level. I do. I specialize in what I discribe as a story-telling style of wedding photography. Capturing those special photos of love, laughter and happiness, for weddings and events, large or small, near or far, upscale or casual. My business is home-based which allows me to keep my and your expenses down. Your wedding day coverage will include professional photographs of your wedding day. In addition, all the digital images are included on a CD(s) for you to keep and for making additional photographs. This is an affordable alternative that gives you a hugh collection of great photographs at a fraction of the cost. I offer quality photography at an affordable price. Please contact me, David Pisco, to discuss your wedding or event photo needs, I look forward to hearing from you.
